can you... feel your heartbeat, are you living? your
mind is unsung because youre not driven you need to
rise up and personalize your existence you need to
wake up and activate the dreams of your soul idle,
revolt, hero, your hero is yourself theyll break you in,
theyll break you down and leave you down with nothing
you lose yourself and learn from them whatever they
wish to teach you you need to rise up and revolutionize
your thinking you need to wake up and activate the
dreams of your soul idle, revolt, hero, your hero is
yourself you know your dead and its you your
decieving you need to find a way, to yourself, find a
way, to make yourself live, to make yourself live you
need to rise up and revolutionize your thinking you
need to wake up and activate the dreams of your soul
you need to find a way to make your self live
