"The Beat"

The year is 2071
One drum by law has just begun the beat
You'll be informed on what you'll be
And correspond if you want to live

Everywhere people move to the cadence of just one
drum
Time is here, of what was feared
Synchronized by the prosperous ones

Working class caste system adjust,
Pushed down, down, down
Executive hands are red again,
But correspond if you want to live.

Everywhere people move to the cadence of just one
drum
Time is here, of what was feared
Synchronized by the prosperous ones

Everywhere people move to the cadence of just one
drum
Time is here, of what was feared
Synchronized by the prosperous ones

People move to the beat,
To the beat of just one drum

People move to the beat,
To the beat of just one drum

People move (everywhere)
To the beat (everywhere)
To the beat of just one drum

People move (everywhere)
To the beat (everywhere)
To the beat of just one drum
