Far beyond driven
I need a little break
What I have been given
Is more than I can take

She's got the halo
And I have got the horns
I'm dyin' to find out
How she has been reborn

Hey now, what does that tell you?
Hey now, what does that say?
Falling for every your reasons
I won't stay till the day when it's over

Far beyond wasted
Now, I know where it hurts
And this is where I find her
If I don't get there first

We're caught in a crossfire
Of knowing what to do, yeah
Yes, we got all the answers
But still don't have a clue

Hey now, what does that tell you?
Hey now, what does that say?
Falling for every your reasons
I won't stay till the day when it's over, yeah

Hey now
Hey now
Falling for every your reasons
I won't stay till the day when it's over
Stay till the day when it's over
