Call me crazy  
But you can't save me  
I am going undercover

Words are spoken  
The truth awoken  
But I won't be your secret lover

Don't let go if you  
Want to know why  
I am going undercover

I can't hold you  
Till I've told you  
That I won't be your secret lover

(Interlude)

Call me crazy  
But you can't save me  
I am going undercover

Turn me on to  
The things you're into  
But I won't be your secret lover

Don't let go if you  
Want to know why  
I am going undercover

I can't hold you  
Till I've told you  
That I won't be your secret lover

(Instrumental)

I have to share my point of view  
I know you haven't got a clue  
It won't be long  
It won't be long

But I need time to redefine  
What's in my heart and on my mind  
It won't be long  
It won't be long

Ride it down  
Turn it around  
Washing off the anger  
Ride it down  
Turn it around  
Love is not a stranger  
A stranger

(Interlude)

Reach out  
Reach out  
All I gotta do is reach out  
(x2)

Pretending to be happy  
Not in need of love  
(Someone out of the blue)  
Gotta stop the acting  
The show must go on

Reach out  
Reach out  
All I gotta do is reach out  
(x2)

Look up to any people  
Look down on a few  
(Someone out of the blue)  
When I look straight forward  
All I see is you

Reach out  
Reach out  
All I gotta do is reach out  
(x2)

Ah...  
(Someone out of the blue)  
(x5)
