The perfect taste that leaves your mouth  
the vodka tongue that spits it out  
violate me, january victim

all my life I've wasted for this  
violate me, show me your religion  
all my time I've waited  
simple girl, simple girl  
I need you in the world, my simple girl.

and so the kiss became the cold  
after the crash and my cosmetic lows  
you resurrect me, stand me to attention  
take my voices, learn to love them  
you're the christmas promising the summer  
all my life I've waited

simple girl, simple girl  
I need you in the world, my simple girl,  
simple girl, my simple girl, my simple girl, my simple  
girl,  
I need you in the world, want you in the world
