(low five ep)

Unattach to know
Long to be so uninvolved
Try to want to know
How to follow what's being showed
Reserve the right to never tell
Silence tells you more...

I can take the rest down
I can take the rest down

Hang opinion 'round
Hope's ballooning as we wait
Never standing ground
Making moves to compensate
I can't wait to see you try
Suits me when you fail
I can take the rest down
I can take the rest down

Try so hard to plan a route
Of summer escaped from algebra
Lost, confess no claim to truth
Limit me to something more
Reserve the right to never tell
Silence tells you more

Cause I can take the rest down
Cause I can take the rest down
I can take the rest down.....
