"Shallow Water"

I've been sailing of to whatever the wind would take us
We're going on the .. out of the tow
This ..like the more ..to save side
Just drifting around without miss ..too much.

Chorus:

Sweets part, sunshine's just fine
In this shallow water we can't drown.
This boat, this crew, just fine
In this shallow water we can't drown.

..goes up, this boat needs fresh paint
I need all of you to make you stand my day
.. this year before the sailor
And if you sink in shallow water, we are all to blame

Chorus:

Sweets part, sunshine's just fine
In this shallow water we can't drown.
This boat, this crew, just fine
In this shallow water we can't drown.

La la la la la la la la la la
La la la la la ...

Ohh

[Chorus:]

La la la la la la la la la la
La la la la la
...

Thanks to garbo
