UFO

(A. McDonald/C.Mitchell)

I just don't wanna be lonely  
Cause the lights were shining ever so bright  
In my hand there's a pulse of my beating heart  
I'm biting my tongue there's a plastic man on the  
telephone  
Can you see the bright lights shining I don't know  
Can you see the bright light shining, shining....

I saw a UFO but nobody believes me  
I was 16 miles from home with nobody in sight  
I saw a UFO but nobody believes me  
And what's it gonna take to get me back home tonight.  
Can you see the bright light shining I don't know  
Is it a reflection of anyone, the big glow  
and tell me this is all good, and you say, I don't know  
I'm very, very far from home.

I saw a UFO but nobody believes me  
I was 16 miles from home with nobody in sight  
I saw a UFO but nobody believes me  
And what's it gonna take to get me back home tonight.
