It's two in the morning he's sitting in the diner
Waitress stressed out with raccoon eyeliner
He's dunking pound cakes in black coffee
The cook is sick on your food he's coughing
The voices in his head won't stop talking
Humans aren't pretty on the inside, they're just blood
and guts
Most of them are roaches the rest are just nuts
The cities full of police, bums and sluts
You could count the days by the dishes in the sink
His motel sheets and the sky are pink
It used to be kaleidoscope now its periscope eyes
It used to be Lucy now its pollution in the sky
Welcome to Interzone, home of misery
I say hello to the man in the mirror that isn't me
He waited half a cigarette, left the tip in his pocket
He's lost his mind, paranoia's in the cockpit
I grabbed a toothpick on my way out
I brushed off the doubt and I started to shout
Why'd I come into this diner with the low down blues?
Why'd I come to this diner when I was looking for you?
I walk to my grave where the worms wait to greet me
I sit naked I'm the dinner, eat me
The worms eat the worms we all get devoured
The dinner is naked and the truth is sour
Naked Dinner, guns and alarm clocks
Naked Dinner, the truth is a long shot
When you come to dinner come fully naked
It's just a body it's nothing sacred
This is for the wood that discovered it was a violin
This is for the man who got 2 new bracelets and the right for silence
I think this bodies running out of mileage
You could tell by the way I blink these concrete eyelids
As another crooked cop ignores a crime
A melancholy baby dies from an overdose of time
The mugwamps are fighting in the diner
It used to be red, white and blue
Now its rubies, diamonds and sapphires
Gold brick street, that's the path of a liar
The fork in the road gave my motivation a flat tire
As another monk takes a bath in fire
We all pile the excuses higher
The cops have electronic eyes
That weigh your food and luggage
I love it ill put no drug above it
We don't care no more so fuck it
The freeway is a river of tin and steel
Full of unhappy people, waiting for happy meals
Yeah naked dinner I walk to my grave where the worms wait to greet me
I sit naked I'm the dinner, eat me
The worms eat the worms we all

get devoured The dinner is naked and the truth is sour
Naked Dinner, guns and alarm clocks Naked Dinner,
the truth is a long shot When you come to dinner come
fully naked It's just a body it's nothing sacred Here
comes dr. Benway straight out the S.O.A. He's got the
Guantanamo skills Got so much medication, he's
playing dominos with pills Cigarette holes in his
bathrobe, coffee stains on the floor He fills your cup
with black water and asks if you want more Tio Sam,
don't give a damn About no union or working man What
they call justice, I call a joke They exhale the lies and
disappear behind the tea smoke Give me 6 hours to
chop down a tree I'll spend 4 sharpening my ax But
what do you do when lies become facts Relax Gandhi,
never attacked Relax King, never attacked Relax
Chavez, never attacked Relax Diana Nash, never
attacked Relax J, never attacked I'm naked at the table
staring at an empty plate We both wait and we call it
fate The greys all wait and they call it fate When the
truth hits the plate like naked dinner I walk to my grave
where the worms wait to greet me I sit naked I'm the
dinner, eat me The worms eat the worms we all get
devoured The dinner is naked and the truth is sour
Naked Dinner, guns and alarm clocks Naked Dinner,
the truth is a long shot When you come to dinner come
fully naked It's just a body it's nothing sacred
