It stuck around for a simple day
Thinking that I could not ever handle what it could do.
It took a hold now it's in control
Everything that I had has just left the room

And now I'm standing in the light

I know what ye think and what you said to me
Leave it all go because I heard it all before

And now I'm standing in the light
With no one here left to call

I've got the chance to see you float around in your own
mind
I let it go so you can finally breathe
I've got the chance to see you float around in your own
mind
I let it go so you can finally breathe From you

I've said too much but I don't really give a fuck
But do you know the plan that's going on inside?
I cannot tell if this is hell
And we are all fucking paralysed

And now I'm standing in the light
With no one here left to call

I've got the chance to see you float around in your own
mind
I let it go so you can finally breathe
I've got the chance to see you float around in your own
mind
I let it go so you can finally breathe

I've got
I've got
I've got
The chance to see you
