

Time Is A Thief

"Keep Running"

Visit "[Keep Running](#)" on MotoLyrics.com

We've got a problem, it burns inside
Do you know where you are
Count your blessing for a second time
Before it all goes to far

Now we are we're searching
To find an answer
We are we're searching
To find an answer

Go and find another way and just keep on running
Go and find another way and just keep on running

These days they move slow and nights to fast for the
one and only
When you look in the mirror it could not be any clearer
That you're no better than me

Now we are we're searching
To find an answer
Now we are we're searching
To find an answer

Go and find another way and just keep on running
Go and find another way and just keep on running

Go, and just keep running
Go and find another way and just keep on running

Now we are we're searching to find an answer
We are we're searching to find an answer
