"Touch N' Go"

Crystal clear
I saw you passing through my atmosphere
And so I watched you disappear
Recalling everything you did, my dear
You're pushing me right off the edge
Now baby, don't you see?

I want to love you like I couldn't
I want to feel you fall into my arms
And tell you everything I shouldn't
I want to stay when you don't go
Forget the nice and slow
But it's just so touch and go, don't you know

I can't explain
You wash over me like august in the rain
And although I know it sounds insane
Just listen closely 'cause I need it to sustain
You're pushing me right off the edge
Now baby, don't you see?

I want to love you like I couldn't
I want to feel you fall into my arms
And tell you everything I shouldn't
I want to stay when you don't go
Forget the nice and slow
But it's just so touch and go, don't you know
