

And One

"Body Nerv"

Visit "[Body Nerv](#)" on MotoLyrics.com

Sister B sells happy pills,
Into the future against your will,
Termination is a warm gun,
Millions of brain cells on the run.

TV stations inside your soul,
All your love on remote control,
This world is coloured red,
Extinction level one inside your head.

These pills make dreams so funky,
While they turn you into a media junky,
Sister B will never stop,
Be a member in the deathbeat club.

She hits your body nerv...
She hits your body nerv...
She hits your body nerv...
She hits your body nerv tonight!
