We're back to creature
Very hard to understand
I can't imagine how it happened
Impossible to comprehend
I feel the danger
What are things coming to
They shut their eyes go into hiding
There's no god for me and you
Why are we creatures - it's our natural way
Why are we creatures - I hear it day by day
I call you Creature
And I'm not behind the times
Do please forgive me, I'm a rebel
I hit you right between the eyes
Why are we creatures - it's our natural way
Why are we creatures - I hear it day by day
Why are we creatures - that's what I hear you say
Why are we creatures - I hear it day by day
With all my power
Against the wall of decadence
You'll shut you eyes go into hiding
Time to have some influence
Why are we creatures - it's our natural way
Why are we creatures - I hear it day by day
Why are we creatures - that's what I hear you say
Why are we creatures - I hear it day by day
