It's like it seems
someday
holy hands and holy talks
they'll creep - so I understand

that hypnotize tonight
hit and miss - like fragile lies
they'll creep - so I understand

strange and clean
I had the information of misery
in times of change I've seen
Friends in heaven

that hypnotize tonight
hit and miss - like fragile lies
in me - so I understand

strange and clean
I had the information of misery
in times of change I've seen
Friends in heaven
