The time is over any way
Do not try to understand
Exhausted in the no-man's land
Don't let yourself down

Do not call me sweetheart anymore
Do not look the way you do
Don't dance and cry
Is up to you
Don't let yourself down

And actually there is
nothing to regret
I like it raw
Time is like a game
Without a score
Here comes your countdown

Game over win or lose
Let's play confuse
It is all about the time
Love is drug abuse
Who can't refuse
And every time we got to use
the same excuse
