If you got a message
please send me a postcard now
and if you show your feelings babe
my tape machine will get it somehow
if you got a problem
dont't beg the world for help
and if you need somebody babe
i've got a dog who's jobless now
if you got a message
please send me a postcard now
and if you got a vision babe
dont't show that movie in this town
here comes the loser
the master is back - back on the track
