

And One "Only One"

Nothing would be better
when you turn away
give me a second chance
so let me stay
the smile in your face
tell's it for sure
I want to be with you
no matter rich or poor

no matter rich or poor

what's the reason why you don't talk to me
the tenderness you giving me
makes me free
I've got that feeling
of golden times
but I see everthing what glitters isn't gold

no matter rich or poor

You're the only one in my dreams you're the only one
so hear my screams
all the things seem
to blend when
I touch your skin
and hold your hand

Nothing would be better
when you turn away
give me a second chance
so let me stay
the smile in your face
tell's it for sure
I want to be with you
no matter rich or poor

no matter rich or poor
