

And One "Pray"

Maybe i'll just criticize
take people as they are
let me talk to you
have you ever seen a bird in heaven
with folded hands
maybe these convictions
blinding day by day
let me bleed for you

breeding, feeding, hiding
suffering the day
we don't have to pay the price
so you just have to pray
(schrei, grhl)
we don't have to pay the price
so you just have to pray
over and over again
saving grace without your lies
but wen don't have to pay the price
over and over again
maybe we should realize
religion is a leap in the dark
have you ever felt the pain of jesus
we're partly to blame
breeding, feeding, hiding
