"Turn The Nation"

You're walking through an empty street,
Every step like a painful beat,
all you need is the right stuff,
uh... to be high, to get away, to get enough.

I can see something in your eyes,
No more dreams, you can realise.
You can relise

Turn The Nation!

Turn the Nation!

Your walking up,
Your walking down,
Now you know, you're alone,
You need it now,
you need it ever,
you got no friends,
you don't feel better.

I can see something in your eyes,
No more dreams, you can realise.
You can relise

Turn The Nation!

Turn the Nation!

It's enough!

It's enough!

Turn The Nation!

Turn the Nation!
