

And One "Wasted"

She wants a change in her human life
as she put herself under the cutting knife
she wants the look and the feel of an angel
even if it means a deal with the devil

Get out of my way cause you know
that I am totally wasted
Get out- get out
cause I'm everything you ever hated
Get out of my way cause you know
that I am totally wasted
Get out- get out
cause I'm everything for you

I hear screams of a thousand virgins
I see the dreams of mighty surgeons

So when I get my sleep underground
take notice of a distance sound- sleepless soul
wretched and torn
just waiting to be reborn
