[Hook] x2

Turnt up to disguise the lows  
Black hoody to disguise the blows  
M A C to disguise her nose  
And alotta sex and drugs to hide her soul  
She just wanna be a Bad Bitch x2

[Verse 1]

Math wiz turned bad bitch  
Draft pick turned addict  
Mind focused on fashion  
Whats the Prada shows without the bag bitch?  
And its crazy cuz she was never labeled a bad kid  
Good grades, getting A's, now she up in Ace of Spades  
Taking eggs to the face, putting her ass where the  
cash is  
Got a new weave, no baby bottles  
New Daddy in me, no baby fathers  
Hash-tag all caps "my ladies follow" (x2)  
Man this shit is crazy  
What happened to that girl born in the 80's?  
25, 7 kids, 6 baby daddies and all her friends  
say she live on the county  
Man that bitch is lazy!  
Got damn baby girl where'd you lose ya aspirations?  
(x2)  
n a box, in a screen, so she figure  
Got her working out daily  
Watching Martin getting fly  
Screaming "Ima lady!!!"

[Verse 2]

Turnt up to disguise the lows  
Black hoody to disguise the blows

M A C to disguise her nose  
And alotta sex and drugs to hide her soul  
Cuz mama used to love her some rock n roll  
Love Machine in the background as the plot unfolds  
Laundry-mat, on her knees, giving throat  
Its a miracle her mama thought she was out washing  
clothes  
After a few trips, a few tricks, a few sips, She with Mr.  
Robinson  
and oh that girl just love to smoke  
Once loved the idea but now she hates the image  
No one told her along with being a bad bitch  
come with trips to the clinic  
French Montana, no father figure  
screaming out "bottle after bottle like fuck my kidneys"  
Once loved the idea but now she hates the image  
No one told her along with being a bad bitch  
come with trips to the clinic  
French Montana, no father figure  
screaming out "bottle after bottle like fuck my kidneys"
