Stay and stuck it out  
And stick around don't leave now  
I carry things too and figure out  
True love you found in another guy  
And I was irreplaceable

':

I hate you  
I hate you  
I hate you  
I hate you  
This much  
Lover of ..  
Said you can walk out the door  
And leave it all behind  
What kind of man would I be  
Ooh baby just a thought of me  
I keep real  
But you go on your marry way  
Like everything is cool  
I figure out why  
You're love it was found in another guy  
That was irreplaceable  
Such a dangerous feeling  
I hate you  
I hate you  
I hate you  
I hate you  
This much
