Miss Genova

You call and I'm coming over
There is something to be said for growing older
I can't think of what it is right now
Maybe if we sit down I can force it out

Miss Genova

Excuses aren't going to win you over
And there's a science to the politics of order
So smash your faith and flail your heart
Whatever makes you feel better at all

(I'll Reach on up into the sun and pull the curtains over)
Whatever takes the edge off
Whatever helps you get on
You know I miss you more than anything
Or anybody else
(Ill reach on up into the sun and pull the curtain over)
Whatever gets you through
No matter what I do
You know I miss you more than anything

Miss Genova

Come and lay with me here on the sofa
I only wanted to have tried to smooth things over
You've scratched your name into the dark
Whatever makes you feel better at all

(I'll Reach on up into the sun and pull the curtains over)
Whatever takes the edge off
Whatever helps you get on
You know I miss you more than anything
Or anybody else
(Ill reach on up into the sun and pull the curtain over)
Whatever gets you through
No matter what I do
You know I miss you more than anything

Ordinarily nothing fazes me
Ordinarily nothing scares the hell out of me

Miss Genova

You call and I'm coming over

There is something to be said for growing older

I can't think of what it is right now

Maybe if we sit down I can force it out

(I'll Reach on up into the sun and pull the curtains over)

Whatever takes the edge off

Whatever helps you get on

You know I miss you more than anything

Or anybody else

(I'll reach on up into the sun and pull the curtain over)

Whatever gets you through

No matter what I do

You know I miss you more than anything
