"My World"

Visit "[My World](#)" on MotoLyrics.com

One day in a mudpuddle in the street
A little child was playing and running
In a small village
Laughing, joking and so... so happy
You know it's my childhood
Together on the rolletstable
In a crowded and smoking room
Do you know someone of them
He is my father
I don't care about politic
I don't care about anything, even you too
Only sing and drink beer
It's all my world

Reff:

Na na na... you know my world
Na na na... this is my world
Na na na... I don't care 'bout anything
I see my friends, all of them
Drinking and smoking mariyuana
Just dreaming escape from reality
But they're all my friends

Reff:

Na na na... you know my world
Na na na... this is my world
Na na na... I don't care 'bout anything.
