I remember when we last met
When I told you that I loved you
When I promised you I'd be back soon
That's the last... we're in love
You never know, never know
You don't understand me
You don't understand all my life
I really really realize that
You said someone loves you more than me
You never know, never know

Reff:

Coz the politic is so real, now I'm in jail
They robbed my freedom, my rights
As they robbed rights of the people
{2x}

Coz the politic is so real, now I'm in jail
They robbed my freedom, my rights
As they robbed rights of the people
