"Dracula's Guest"

Snow has come and after came the wolves
Dark clouds quickly slid across the sky
Beneath the loam in their coffins asleep
Rosy corpses, lips red with blood
"Walpurgis night"

As bewitched, I approach the lonely grave
Terrified and stunned, cold seized my heart
Blinding flash struck the iron spike
Driven into the marble tomb
"Dead travel fast"

At the moment of agony
From the grave dead woman rose
While she bath in the flame
Thunder took her terrible scream of pain

Walpurgis night, dead travel fast
Devil walk the world
Malicious creatures from the air
Ground and water orgy

For a while I remembered nothing
But then I slowly regained my sense
I felt on my chest and saw through eyelashes
Gigantic wolf that licks my throat

At the moment of agony
From the grave dead woman rose
While she bath in the flame
Thunder took her terrible scream of pain
