yeah man
whitch one of these cars you gonna use
I might use the celica, the mazda, nissan or toyota
I heard they got that new pt cruiser on there too
yeah, whitch course we gonna use, lets try the deep
forest
i heard that was fly

3! 2! 1! lets go!
foot to the pedal and the pedal to the floor
hurry up and take off, adjust my seat
everything cool cause im dippin to this beat
slideing slippin' smashin' off
i take the lead while others crash the wall
doggy D-O-double G in the motherf***ing Gran
Turismo 3
the coolest game doin things,
im picking up speed while im switching lanes
doin bout a 100 tring to reach 2
my homie in the baby, baby blue
yah so, sittin on firestone,
im trying to bring another checkerd flag home
it feals bad in the worst way
when you in last place but look im in 1st place
so how im gonna trip of that
cause if i lose im gon turn it off and get right back
chose a whole nother car
a whole new course
with tunnels and trees
thanks for your support
i couldnt have did it wihout you
i doubt you ever seen a racing game this astounding
picking you up when your downing
i drive good when the beat be pownding
knocking all across your face
you boys want another race
in a whole nother place, in a whole nother state
i was last seen doing 298 in a s2000 silver and black
sitting on crome lookin bad like that
burning rubber smashing like that
on the real deal
live from aplicot hill

im in hot pursuit being pursued by
shit thats way to cute
slipping out my lane
swerving trough the grass
man these cars be on my ass
bumper jumper to 300 way cool
im doing too much i done lost control
should i stop or should i role
my mission is to possision my pawssesion
and fold these others up
even my brothers (what?)
its all about winning yall know whats up
playstation 2 takeing you to a whole new dimension
where the cars look fly and they got good suspension
did i mention it was tight tho for real tho
gran turismo number 3
ur listning to the sounds of the D-O-G baby
rideing slipping slidein
whatch out for the curve the cars be collideing
dang you in second gear
put it in third
and make sure you dont hit those white lines by the
curb
you wit your shuby do in the subaru
oh lord i jumped in a dark blue ford
and he claimed he in it to win it
dont you trip just make sure that you finish 1st 2nd or
3rd
thats all that matter and i doubt theres a racing game
thats phatter
for real tho gran turismo for shore tho
on the low do the game thats for shore yo
put yo pedal to the metal
and ax all the kids in the ghetto
is the game hot like the kettle
and i gararte they all say hello

doing bout 200
in the fast lane
