(D. O'Brien, R. Patterson, B. Setterington)

Intro/Interlude

Baby I got, no need to worry  
No need to feel  
No need to be alone alone alone again,  
Do you know why,  
Cause I'm around girl

CHORUS

I can see the sadness in your eyes, oh my...  
I can see the teardrops crying why, oh why...

I remember them days alone  
Oh so long ago  
And I had this really silly crush on you  
But I hoped you'd never know

When you were sitting on your doorstep  
Wearing shoes that you've outgrown  
Trying really really hard just 2 impress you  
But you would turn on your radio  
(your favorite song you'd play)

She would always laugh at me  
But I would take it  
'cause I thought she would make it  
But all this time, it's been killing me  
So I sing...  
Ooo-ahh-na-na-na...

CHORUS

I can see the sadness in your eyes, oh my...  
I can see the teardrops crying why, oh why...  
I can see the sadness in your eyes, oh my...  
I can see those teardrops crying why, oh why...

I double-rode you down 2 that secret place

The only world we could be alone  
And the sun had hid it's face from you  
Where we'd usually laugh and be skipping stones

You would tell me about your family  
How they'd never-ever seen 2 get along  
And pretending it don't hurt you  
But the clouds told me somethings wrong...  
(she didn't want to say)

Wanted a life that could not be  
But she would fake it  
Until she would make it  
Still all this time, it's been killing me  
So we sing...  
Ooo-ahh-na-na-na...

#### CHORUS

I can see the sadness in your eyes, oh my...  
I can see the teardrops crying why, oh why...  
I can see the sadness in your eyes, oh my...  
I can see the teardrops crying why, oh why...

#### SOLO

Still all this time it's been killing me  
So we sing...  
Ooo-ahh-na-na-na

#### BRIDGE

Hope, she needs a little,  
Hope, she wants to feel the sunshine again  
Hope, she needs a little,  
Hope, she needs to feel her sunshine again

#### CHORUS

I can see the sadness in your eyes, oh my...  
I can see the teardrops crying why, oh why...
