Been searchin all my life just to find you
In love with something about you
My soul feels empty without you
Where you've been hiding
So hold-a-me follow me
come to me bet on me
come beside-a-me and talking
toxic
What's your name, your claim to fame
GIRL You make me feel like heaven
Intoxicate me on your game
GIRL I'm fascinated by your ways
GIRL Make me wanna ball till seven
There's no way I'm leavin
Voluntarily violate me
GIRL I will never find another girl like you
that looks so grand
Show me what I've been missin
I hope to be the one to change you
understand to overstand
But I will have you live to see true love
a-one day
I wanna be that one to hold your hand
I wanns be be that special light
that shines just like the northern star
That way you'll know just where you are
Fantasize feelin you hold me tight
don't let me fall too far
So I will know you will live to see true love
a-one day
You make me feel like heaven
What's your name, your claim to fame
GIRL Make me wanna ball till seven
Intoxicate me on your game
GIRL There's no way I'm leavin
I'm fascinated by your ways
GIRL Voluntarily violate me
GIRL Show me what I've been missin
So hold-a-me follow me
come to me bet on me
come beside-a-me and talking

So hold-a-me follow me

GIRL You make me feel like heaven
Intoxicate me on your game
