My old suit still seems to fit
I'm crossin' my fingers and bitin' my lip
I check the mirror, say what a trip
'Cause I still go it
(I still got it)

Don't you think a day I missed
The way we fought and the way you bitched
She left me poor, but I feel rich
'Cause I still go it
(I still got it)

Don't leave me this way
With nothin' in my heart but an empty page
How could you say that you never really loved me
With a straight face, baby?

Did you think I fell for it?
And finally I must admit
That you were the pain and I was the [unverified]
It don't matter anyway
(It don't matter anyway)

Start the day back in my car
Is that star too far to get to?
I don't care who you think you are
'Cause you don't get it
(You don't get it)

Everything I said to you
Went in one ear and out the other
I don't know what the hell I did
I don't know why I even bothered

Don't leave me this way
With nothin' in my heart but an empty page
How could you say that you never really loved me
With a straight face, baby?

Did you think I fell for it?
And finally I must admit
That you were the pain and I was the [unverified]

It don't matter anyway
(It don't matter anyway)
