"Anything for You"

Visit "[Anything for You](#)" on MotoLyrics.com

I will do any anything just for you
Make you feel happy and I never make you blue
I will do any anything just for you
Sacrifice my love I couldn't live without you
This is why, why
This is why, why

[Unverified]

Saw you're face above your body walking into part two
Ah when I take her home and ride her like a choo choo
But your mouth in a me face above my face I did screw

[Unverified] where I say, "I do"

Take a trip down to Jamaica for romantic honeymoon
Candlelight bubble bath dancing to the right tune
Say sugar yes it's sweet but not like sweet like you

I will do any anything just for you
Make you feel happy and I never make you blue
I will do any anything just for you
Sacrifice my love I couldn't live without you
This is why, why
This is why, why

No one makes me feel quite like you
With the things you say my love
(The things you do)
This is why, why
This is why, why

You were the right one when first I saw you
To me you are so special and it's true

I will do any anything just for you
Make you feel happy and I never make you blue
I will do any anything just for you
Sacrifice my love I couldn't live without you
This is why, why
This is why, why

I will do any anything just for you
Make you feel happy and I never make you blue

I will do any anything just for you
Sacrifice my love I couldn't live without you
This is why, why
This is why, why

[Unverified] is body might be everything
When I'm with you I just jump and prance
Now each passing day I would love to spend with you
[Unverified] just another [unverified] my love is so true

The feeling's are so strong, I hope the feeling's mutual
Heaven sent from above it's pure and natural
There's no other way to describe the love it wouldn't be
a lie
I love you much [unverified] till the day I die

I will do any anything just for you
Make you feel happy and I never make you blue
I will do any anything just for you
Sacrifice my love I couldn't live without you
This is why, why
This is why, why
