{Yami Bolo}

It's been so long We've been in captivity.
People wishing one day to be free.

{Snow}

Waiting to see the day when freedom will come.
Mama working hard in the burning sun.
I wish the world were truly happy living as one living as one.
Wish the word they call freedom one day would come.
I may be just a foolish dreamer.
But I don't care.

{Yami Bolo}

Freedom rushes freely through the air.

CHORUS

Freedom more freedom don't turn them down don't
turn them down.
Freedom more freedom don't turn us down don't turn
us down.

{Snow}

Although they've no love for Humanity

{Yami Bolo}

How could you ever sell your brother man in slavery.

{Snow}

In word of injustice crimes and poverty.
Organize and set your lives in one unity was meant to
be.

{Yami Bolo}

Overcome material gain petty prejudice system.
Too long poor people have been the victim.
I wish that one day when freedom comes.
For each and every man to see the morning sun.

CHORUS
