What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

I paint a picture, girl
Of a love so true
Of all the beautiful things
You and I should do

Imagination
It will drive me wild
Till it reach the part
Of painting your smile

Oh no, oh no, maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

In the midnight
When I'm all alone
I turn the lights down
Soft and low

Start when I'm missin'
All the love I once knew
In comes the dreamin'
Of me lovin' you

Oh no, oh no, maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

It bugs me, you think you love me
Put her above me
But love don't live here no more
For you show me it's ugly

When you reminisce, remember this
I'm gonna need better than this
Not gonna sit here and wait for love
I'm gonna go out and seek it

You want a classic freak
Like only you could keep a secret
I need attention, did I mention
I wanna get some respect

Try to go with the flow
But I keep losin' my bets
Certain things I ain't do
Because I wasn't ready yet

If you livin' a lie
Let the love be real
'Cause you don't really miss me
You just miss how it feels

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely

What's this feeling
That I'm feeling
When I'm feeling
Maybe I'm lonely
