This is my daddy  
And here's his new sound

It feels like I've been slippin'  
My world ain't got me whimpin'  
Is it my name that she's callin'?  
Got one hand on her shoulder but its slowly fallin'

Don't wanna scrub off this feeling  
Don't wanna rub off this feeling

Was it her lips that would kiss me?  
Why'd you kiss me, then you diss me?  
And she wasn't even dancin' with me?  
Was it her look that would freeze me?

Why'd you freeze me, then you leave me?  
When you weren't even groovin' on me?  
Don't wanna scrub off this feeling?  
Don't wanna rub off this feeling?

I swear I caught her winkin'  
If the eyes were the soul then she wasn't thinkin'  
In my world I was pretendin'  
To be cool but it wasn't lastin'

Don't wanna scrub off this feeling  
Don't wanna rub off this feeling

Was it her lips that would kiss me?  
Why'd you kiss me, then you diss me?  
And she wasn't even dancin' with me?  
Was it her look that would freeze me?

Why'd you freeze me, then you leave me?  
When you weren't even groovin' on me?  
Don't wanna scrub off this feeling?  
Don't wanna rub off this feeling?

Bounce, baby, baby  
Bounce, come on

Saturday night I was at your party  
Singin' and dancin' with everybody, except for you  
Saturday night I was at your party  
Swingin' and groovin' with everybody, except for you

Was it her lips that would kiss me?  
Why'd you kiss me, then you diss me?  
And she wasn't even dancin' with me?  
Was it her look that would freeze me?

Why'd you freeze me, then you leave me?  
When you weren't even groovin' on me?  
Don't wanna scrub off this feeling?  
Don't wanna rub off this feeling?

Love was a thing no money could buy  
(Love was a thing no money could buy)

Was it her lips that would kiss me?  
Why'd you kiss me, then you diss me?  
And she wasn't even dancin' with me?  
Was it her look that would freeze me?

Why'd you freeze me, then you leave me?  
When you weren't even groovin' on me?  
Don't wanna scrub off this feeling?  
Don't wanna rub off this feeling?
