Come back somehow  
Give me another try  
(I really didn't think so)  
I will be satisfied

Back someday  
You will be satisfied  
(I really didn't think so)  
There is now need to lie

Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant  
sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground

I know someday, she'll be back my way  
I should have warned her of the things that jealous  
people might say  
I loved you and you loved me  
I turn around and you were gone and that just came out  
the blue  
When I close my eyes all I see is your smile  
(Dem talkin' rumors 'bout me lot, dem talking rumors  
'bout you lot)

Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant  
sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground

No sunshine since you went away  
If I call you up would you have something to say  
Now I know that this love thing was true  
There should be no doubt that all I ever wanted was  
you  
When I close my eyes all I see is your smile?  
(Dem talkin' rumors 'bout me lot, dem talking rumors  
'bout you lot)

Bare with me, watch how it's going down

You know it's Snow man when you hear it from a distant  
sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground

When I close my eyes all I see is your smile

They're talking rumors, rumors about me  
They only wanna mess up my life

Hey ho, here comes the Snow  
You think you did a win but you never did a know  
Yes it's I, I just you and I  
You think you did a win but tonight you gonna die

Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant  
sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground

Hey ho here comes the Snow  
You think you did a win but you never did a know  
Yes it's I, I just you and I  
You think you did a win but tonight you gonna die

They're talking rumors, rumors about me  
They only wanna mess up my life
