I've been down this road before  
Now I'm coming back for more  
This is like a deja vu, I was born to be with you

Into the night we went to sleep  
You and I were meant for keeps  
Into the night we went to play, You and I

(I really hope you'll always be, so in love with me  
I really hope we'll always stay, so attached this way)

So beware of that pitfall  
We don't have to change at all  
And our light will not burn out  
It's what freedom's all about

Into the night we'll go to sleep  
You and I are meant for keeps  
Into the night we'll go to play  
You and I

I really hope you'll always be, so in love with me  
I really hope we'll always stay, so I'll attached this way

I really hope you'll always be, so in love with me  
I really hope we'll always stay, so I'll attached this way

I really hope that we'll always be here  
I really hope that you'll always be near  
Take me and break me, I'll always be here

I really hope that you'll always be near
