Just close your eyes  
Close your eyes  
And dream with me through the night  
Let me turn out the light  
While you're dreaming,  
I will hold you tight

By my side you'll have no fear  
Lean on me and whisper in my ear  
You're the one I need  
You make my life complete

Can you feel how I feel  
Mixed emotions, the feeling so unreal  
Need you here by my side  
Promise me that you'll never run or hide

By my side you'll have no fear  
When you're here I'll whisper in your ear  
You're the one I need  
You make my life complete

Everything you do makes me love you  
I swear that I'll always do my part  
To make this dream come true
