Like stars from the world above you
Bright dreams from the world inside
Bright scenes scattered al around you
And each scene shows you who you are...

It's all the same when you think about it
Not much to say and I don't much mind..
I like today, there's a gleam about it,
That shows the way to who knows what you'll find..

I know It could all fall for you
I know cos it's all beautiful
I know it could all fall for you
Hey yeah yeah it's only natural ..

And here we are on the gold grey beach
With the sun and the sand and the waves at our feet
And there are a million grains
and like diamonds they glisten
To the sound of our days while the old breeze listens

I know it could all fall for you
I know cos it's all beautiful
I know it could all fall for you
Hey yeah yeah it's only natural...

Just look at that...Hey look at that !
Well, it reminds me of teh place you showed me
I know it was you
I t reminds me of the thing you told me
I know it was true...

I know this won't last forever
But I'm happy now
Yeah I feel much better..
Something in the sky tells me I could be happy
Something in your eye makes me fell sort of carefree
Something in the sky tells me I could be happy
Something in your eye makes me fell sort of carefree...

Sometimes life can all fall for you

Yeah yeah yeah sometimes it;s all true
I know it could all fall for you
yeah yeah yeah it's all beautiful
