I used to be concerned
With what it means to be alive
We tried to have our moment
And the moment passed us by

Let's take a deep breath now
Make it all slow down
We've got a good shot,
This time it's now or never

We don't wanna stand here
Waving ourselves goodbye
We'd rather break down
And leave it all behind
There's no tomorrow,
There's just tonight

Was it ever obvious to you that i gave up
I couldn't fix the part of me
I knew was loosing touch
Till lost my faith, in the little things

We've got a good shot
It's now or never

We don't wanna stand here
Waving ourselves goodbye
We'd rather break down
And leave it all behind
There's no tomorrow,
There's just tonight

Let's go tonight, till we see the light
Strip down to who we are with in
We'll never hurt,
We'll never hide anything inside

Promise we will never grow old
'Cause we've only begun to wake up
Let's go tonight, till we see the light
Strip down to who we are

We don't wanna stand here
Waving ourselves goodbye
We'd rather break down
And leave it all behind
There's no tomorrow,
There's just tonight
There's just tonight

Promise we will never grow old
'Cause we've only begun to wake up
