Haven't you had enough of my brain
It's on the table, I've got no more to say

If I bore you, get out of my way
This one's for you, so cut me a break

'Cause I can't wait
I'm the same I was when we first met
And now I feel you're pulling away
So just give me the word
And I'll leave today

But if you want me to, I'll be the one for you
Maybe I can save your life
At times you've hated me, ain't that how love should
be?
So just let me save your life

There's a line formed
You can't see
I've been waiting
You give nothing for free

But there's a yearning, that's deep and calm
And time has burnt me
So cut me a break
'Cause I can't wait

I'm the same I was when we first met
And now I feel you're pulling away
So just give me the word
And I'll leave today
Yes I'll leave today

But if you want me to I'll be the one for you
Maybe I can save your life
At times you've hated me, ain't that how love should
be?
So just let me save your life

Don't you know me?

I'm helpless without you...
I watched you sleep so I could dream of you

If you want me to, I'll be the one for you
Maybe I can save your life
At times you've hated me, ain't that how love should
be?
So just let me save your life...
Let me save your life...
