"Baby moon"

Visit "[Baby moon](#)" on MotoLyrics.com

Seven, six, five, four, three, two, one
I'd like to be a baby moon
Flying 'round the sky
I'll make me up a little tune
And sing it while I fly
I'll sing about the girls I knew
And all the good times that I had
And how I've been in love with you
And how you made me glad
I'll just fly the whole day long
And never do another thing
I'd like to be your baby moon
Just flying while I sing

Then maybe you'll queue in...
When you hear me singing my tune
You'll fly right up along my side
And be another baby moon
We'll just fly the whole day long
We'll never do another thing
We'll be two little baby moons
Just flying while we sing

I'll just fly the whole night long
And never do another thing
I'd like to be a baby moon
Just flying while I sing

Maybe you'll queue in and are gonna sing
When you hear me singing my tune
You'll fly right up along my side
And be another baby moon

We'll just fly the whole day long
And never do another thing
We're two little baby moons
Just flying while we sing
