Count on me, when you're down  
We'll take this problem and turn it around  
Just like you, brother to brother  
You're a wind in my sail  
So just blow me around  
She said "It's alright, It's okay"  
"We can turn this around"  
"And have a better day, yeah"

It's gonna rain down on me  
I can plant a little seed  
Watch it grow, just let it be

It will rise, to meet the sun  
Bring it back to the earth  
Gonna lift everyone  
He said "It's alright, It's okay"  
"We can turn this around"  
"And have a better day, yeah"

It's a better day, better Way  
We can  
Turn this around  
And have a beautiful day

Count on me  
Watch me play  
I am coined as a fool  
So I'm damned anyway

I don't need to be down  
You're a wind in my sail  
So just blow me around  
We said "It's alright, It's okay"  
"We can turn this around"  
"And have a better day"

We can turn this around
