Looking here Baby or talking on the phone Ring Ring  
Pretending to be natural in an awkward manner  
I already know you the Paparazzi  
With a smiling face that you wish to see Aha ha ha ha

Every night's hide and seek  
Now there're still many satellites  
Don't you want more good reports?  
Let's be nice to each other, aren't we of the same party

Life is a party from garage to suite room  
Any time you go boom boom boom  
Gorgeous car chase, flowers all round  
Leading you to the Boom boom boom

The love that grown up with a price tag  
Shooting the darkness while flash is the sight of money  
Life is a party from garage to suite room  
No matter I'm sleeping or awake, boom boom boom

Oh La La La  
La La La La  
Oh La La La

When I hide you wish to see the back of the screen  
The person who pretends to be honest also goes La  
cha cha la  
That dandy person also goes Mama mama at home  
Feeling anxious at the thrill of the secret kiss

Punkadelic crazy night  
Searchlight for the restless star  
Bad boy bad girl I'm don't care  
Compared to being controlled, dancing is the style

Life is a Party, the more damage it causes the more it  
sells  
Once discovered, the last Boom boom boom  
The shadow hiding at the end of the night  
Take a shortcut to the front and Boom boom boom

After the rumours sparkle as rumours  
Burning and before burring  
I'm just loving and receiving loves  
Now that even this love becomes dirty  
I can't bear with it, I can't bear with it

But there's no reason for me to complain  
Here and there Boom boom boom  
Saying that the more you show the brighter you shine  
Come On Friends, that's right this way, Oh la ta ta

Life is a party from garage to suite room  
Any time you go boom boom boom  
Gorgeous Carchase, flowers all round  
Leading you to the Boom boom boom

The drop of tears that's rolling down now  
Until it becomes a shining diamond  
Life is a party from garage to suite room  
No matter I'm sleeping or awake, boom boom boom
