TaeTiSeo - Twinkle Lyrics (English)

The twinkle, twinkle The twinkle, twinkle
Even if I hide it, I twinkle - what to do?
It catches the eye instantly
Even if I'm covered with a veil
I obviously twinkle
Other people like the twinkling me too
You need to take caution till the end
You're the one who stole this gem
Always protect my side, only linger around me
Don't take your eyes off me
Fall into my charm
Even if I hide it, I twinkle - what to do?
It catches the eye instantly
Even if I'm covered with a veil
I obviously twinkle
I forget the times of the unknown world
Even when you open your eyes in the morning
Your dream will continue
I want to look good for you
I want to be prettier and twinkle
Why are you the only one who doesn't know my true
value?
Even if I hide it, I twinkle - what to do?
It catches the eye instantly
Even if I'm covered with a veil
I obviously twinkle
You're so calm, you're so arrogant
I can't see the end of the line of those who want me
Unbelievably, you're so indifferent
I'm a fallen star from the sky
Even if I hide it, I twinkle - what to do?
It catches the eye instantly
Even if I'm covered with a veil
I obviously twinkle
You're twinkle, look at me, where are you looking?
Look at me - even with dull clothing on
I still twinkle
Even if I hide it, I twinkle - what to do?
It catches the eye instantly
Even if I'm covered with a veil
I obviously twinkle
