Peaceful nighttime  
shot of New York,  
I meant Los Angeles, where...  
the only light comes from  
the buildings AND SPACE!  
Aliens wake up as early as my mom.  
Blue lights falling  
...down.  
Rise and shine it's  
time to be abducted  
Shield your eyes,  
maybe they'll call it off.  
Maybe they'll shake your booze  
and wake the drunk guy.  
Drunk guy standing.  
A girl's scared of the  
varicose veins on his face.  
(VEIN SHOT)  
"Hey girl, are you okay?" "No."  
Hip light, Universal, Relative,  
Rogue

Tiny girl between your legs,  
now she's bigger.  
Aliens outside.  
If you think you can  
take a picture, zoom, cut away,  
product placement.

There's tiny ships comin' out of  
biiiig ships with vacuums that  
suck up people.  
Statue of Liber-TV  
Aliens have handheld  
human vacuums,  
maybe you can get away  
in your Ferrari. No.  
Maybe try your Mercedes.  
Maybe not!  
Hot chicks, bomber planes,  
falling on the guy from Dexter.

Run away! Not that way!  
Alien slobber  
Cut

Rejoice, the helicopter's going to  
save you, NOT!  
Screaming at planes  
This Fall  
Sadly shooting in the kitchen,  
lava monster,  
helicopters are worthless.  
Our First Encounter  
guy from Dexter,  
shoots a rocket, dodge a rocket.  
That thing didn't,  
making out before you're vacuumed  
Our Last Stand  
Holding on, don't look  
at the light or you'll get ugly.  
Giant people vacuums  
vacuum people,  
Closer shot then screaming!  
SKYLINE  
One-Two-One-One-One-Oh
