I love these feet, they get me home
When I'm all alone
Right through these streets
As lonely as I am when I get home
So stay with me
Let's feed the night and kill the morning
The city breaths, the sun will rise and stop the falling,
yeah

chorus:

I'm dancing though I never dance
You're laughing though you never laugh
And I hope we're more than friends
And I hope this will never end and this shall never and
This shall never end

2.verse

Angels fall, they break the windows on the rooftops
Strangers call, they go to places where rock n'roll rocks
Embraces. Around the corner love is being born
White faces that cry alone when their love is being torn

chorus:

I'm dancing though I never dance
I'm laughing though you never laugh
And I hope we're more than friends
And I hope this shall never end
And this shall never end
And this shall never end

bridge:

Love, you've gotta love, just feel it, you've got a lot
Ooh-aah, you've gotta love, just feel it, you've got a lot

chorus:

I'm dancing though I never dance
I'm laughing though you never laugh
And I hope we're more than friends
And I hope this will never end
And this shall never end
And this shall never end
