

## Crash, The "These Days"

Visit "[These Days](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We met in a sordid bar  
Where you waltzed into my arms  
You seemed like the one I'd waited for

For a time we had a ball  
I was sure we'd never fall  
Till you came by to see me one last time

These days gone for life  
These days gone for life  
These days were so beautiful  
Please stay for tonight  
Please save me tonight

So the days were falling down  
As you moved from town to town  
But you came by to see me one more time  
You came by to see me one more time

These days gone for life  
These days gone for life  
These days were so beautiful  
Please stay for tonight  
Please save me tonight

Into your arms  
For all the love you wanted  
Down go the stars  
You know when to stop

These days gone for life  
These days gone for life  
These days were so beautiful  
Please stay for tonight  
These days were so beautiful  
Please stay for tonight  
Please save me tonight  
Please save me tonight
