Dont take it from me
you know I'm just guessing
It wasnt a clue
I dont know the way
You've got a brain
maybe its time to use it

Fire it up, a little warm running
Chocs away, go & meet whats coming
You aint a fool, there aint a limit
Fire it up, find out whats in it

Caught between worlds
no there aint a warning
Dont take it from me
I dont know the way
You've got a brain
maybe its time to use it
Fire it up, a little warm running
Chocs away, go & meet whats coming
You aint a fool, there aint a limit
Fire it up, find out whats in it

Chocs away, a little warm running
Fire it up go & meet whats coming
You aint a fool, there aint a limit
Fire it up, find out whats in it
