Well, there's a static landscape stretching as far as the  
eye can see

And a frozen sunset burning like some giant restless  
eye

I can't move in here, I'll let my fingers do the walking  
Is this a casting or the daydream of a castaway?

Nothing ever changed here, 'cause no one's alive for  
real

I see narcissi shooting up in the garden  
I got blind from staring right into the sun  
I've got a sense of community and tics round my eyes  
We share all knowledge in the world but have nothing  
left to tell of, oh yeah

Oh why can't I fall in with you?

I guess I can't be lonely with the whole world in my  
room  
Who needs progress in a world built on metaphors of  
lore?  
How'd our love turn into sorrow, in a place with no  
tomorrow?  
Wizened down the ocean all the stars have gone real  
low  
And Wisdom's song will follow, that I can't explain in  
digits

I feel good in my room, nothing outside  
I sense the danger in the air  
Pangs of love from my mind shoot into the night

Pull on your electrode suit tonight  
Watch my presence in the erzats light

I want to fade away  
Among the binary stars

Ah, knowledge is good  
Ah, nothing left to say, oh no!

Pull on your electrode suit tonight  
Watch my presence in the erzats light

(repeat)

Ah-ah ah-ah
